Skills

- Power BI
- Snowflake
- SQL
- Python
- Tableau
- Airflow
- AWS/S3
- OAS
- ORACLE/ERP
- DAX Studio
- OBIEE/RPD
- ODI
- ETL
- Machine Learning/Generative AI
- Microsoft Office 365
- Jira/Confluence
- Stakeholder Management
- Data Engineering
- Business Analysis
- Data Analysis Skills
- Leadership and Management
- Organizational Skill

Summary

Data Analyst Staff Professional with 5+ years of experience and working knowledge in data warehousing, business needs analysis, Data Analysis, Data Modelling, exploration, and presentation. Proven to understand customer requirements and implemented actionable projects. Dedicated and hard-working with passion for Big Data and Data Science. Seasoned collaborator experienced in meeting needs, improving processes, and exceeding requirements in team environments. Industrious worker with strong communication and task prioritization skills. Self-Motivated and results-driven Data Analyst with proven track record in Data Analytic. Identifies business needs and develops valuable solutions to improve accuracy and process optimization and risk management. Proficient in working with complex data sets using statistical techniques for analyzing patterns and extracting meaningful insights for organizational stakeholders. Communicates and collaborates well to educate and engage technical and non-technical stakeholders. Collaborates effectively to deliver multiple, concurrent projects in fast-paced environments. Leading and managing the team to achieve their goals and to meet customers' requirements.

Experience

Senior Data Analyst

Marvell India Pvt. Ltd | Bengaluru, Karnataka | June 2019 - Current

- Currently working as Senior Data Analyst and working on multiple Effective Projects using the technology, knowledge and experience of Data Warehousing, Data Engineering, Business Needs Analysis, Data Analysis, Power BI, SQL, Snowflake, Python, S3, Airflow, OAS, OBIEE, Tableau, ODI, Five Tran, SCM, ERP.
- Performed SQL coding, Snowflake coding, debugging, analyzing and reporting, with a focus on Data Warehousing and Data Modeling.
- Utilized Snowflake in multiple projects to manage and analyze data efficiently, leveraging its cloud-based architecture and advanced features for seamless data integration and analytics.
- Proficient in writing efficient and complex SQL and Snow SQL queries, developing Stored Procedures, and optimizing database performance to enhance overall system efficiency and data retrieval speeds.
- Contributed to the development of multiple dashboards and reports using Power BI Desktop, and successfully published these dashboards on the Power BI Service platform along with implementation of PowerBI Gateways, Row Level Security, Power BI apps, Power Views, Creating Workspaces and Sharing dashboards.
- I possess a strong proficiency in Power BI Data Modeling, Power Query, DAX queries, Data Warehousing, and Analyze in Excel and used for the building the PowerBI reports and dashboards.
- Designed and implemented complex data models, ETL processes, data pipelines, and data governance frameworks in PBI and SQL
- Developed python scripts to build ELT process and for automation.
- Worked and used SQL servers, ERP System, AWS
- Worked with Airflow to orchestrate and automate data workflows, ensuring reliable scheduling, monitoring, and execution of tasks.
- Collaborated with stakeholders to assess business needs and objectives, ensuring alignment of technical solutions with strategic goals and coordinates for UAT activities to ensure design meets their business needs.
- Collect, process and analyzes data to derive valuable insights and support data-driven decision-making within an organization.
- Created and managed projects in revenue, finance, demand planning, and forecast domains, applying expertise in strategic planning, data analysis, and stakeholder collaboration to deliver impactful solutions.
- Presentation to Management, Stakeholders, and leadership team.

- BRD/Documentation

Certificates

Certification in **POWERBI RANKING IN THE TOP 25%** from **TESTDOME.**

Certification **in SQL RANKING IN THE TOP 10%** from **TESTDOME**

Education

- Vellore Institute of Technology Chennai, Tamil Nadu
  M.Tech (CSE)
- Uttarakhand Technical University, Uttarakhand
  B.Tech (CSE)

- Derived significant improvements in organizational efficiency, accuracy, and decision-making and risk management capabilities.
- Helping businesses and Stakeholders to understand trends, identify opportunities, risk management, and solve problems.
- Contributed to supply chain and procurement domain projects, implementing strategies that optimized operations, enhanced supplier relationships, and streamlined procurement processes, resulting in improved cost-efficiency and supply chain resilience.
- Worked on API to extract the data from Salesforce to Snowflake using Python Script.
- Knowledge of Agile and Scrum methodology

Awards

- **Spot Award**, in appreciation of outstanding performance and valuable contribution towards DM and S&OP Phase I Projects in Q1, 2022.
- **Spot Award**, in appreciation of outstanding performance and valuable contribution towards Advanced Analytic Cloud Data Transformation – Phase 2 project in Q4, 2022.
- **Spot Award**, in appreciation to develop Liability, Open PO and Net Inventory Reports for SCM Project in Q3,2023
